

Celebrating
130 YEARS
IN BUSINESS

According to studies, less than one percent of companies make it to 100 years in business. In 2022, Tauber-Arons Inc. will celebrate its 130th year of operation!

On the cusp of this almost unheard of milestone, Tauber-Arons will be proudly entering its unprecedented fifth generation in business. Through it all, we have successfully navigated industry change for well over a century, and we have stayed true to our core concept of customer service. Combining this vast, unrivaled experience with an ever-evolving modern take on the auction industry, Tauber-Arons has remained relevant and at the forefront of the industrial asset services sector. With one of the most respected appraisal divisions and the addition 15 years ago of an asset based loan division, our Industrial Funding Group, the Tauber-Arons umbrella of companies has the ability to handle every aspect of industrial asset financial service.

To explore the full scope of options available to the industrial sector, please visit tauberaronsinc.com today.

**Longevity and experience with a full service, modern approach.
Tauber-Arons is extremely proud of its 130-year history.**
